org.apache.hadoop.fs.s3.S3FileSystem\$InvalidPathException I am trying to run Spark application on S3. Below is the error I am getting. Job aborted due to stage failure: Task 0 in stage 8.0 failed 4 times, most recent failure: Lost task 0.3 in stage 8.0 (TID 21, ip-172-31-57-22.ec2.internal, executor 1): org.apache.hadoop.fs.s3.S3FileSystem\$InvalidPathException: The path

---

'polly.s3.amazonaws.com/user/data/temp\_bucket/output.txt' is not a valid S3 path. I have two questions. Is there a way to run Spark application on S3, if so, what all configurations need to be made. If not possible, what other options are there for me to run Spark on S3? A: It looks like S3 uses / as the delimiter for paths, so this is likely what's happening. This has been documented in previous questions: Is there a way 82157476af
